EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with James W. Kayden on Oct. 30, 2009.

The application has been amended claims 7-12 and 84-135 as directed to non-elected invention as follows:

Claims:

Claims 7-12 (Cancelled).

Claims 84-135 (Cancelled).

(NOTE: The remaining claims 1-6 and 13-83 have the same status as presented on the previous paper.)

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: The examiner appreciates the applicant in clearly, fully explanation, analysis and demonstration his claimed invention in which "neuron-ocular wavefront errors/data" are distinct from "ocular wavefront errors/data" in the Dai et al reference. Particularly, the applicant, pages 37-38, defines that "The neuro-ocular wavefront is a subjective psycho-physical measurement of the wavefront error of the eye-brain visual system of a conscious patient that is spatially-resolved to small regions of the pupil [0045, 0121]. By measuring the angle that must be imparted to one beam of light to bring its perceived image into co-incidence with that of a second reference beam, the neuro-ocular wavefront error is determined over the sub-pupillary locale where it was tested. The neuro-ocular wavefront error across the entire pupil can be constructed from a multiplicity of measurements in the methods taught by the Applicants [0067-0085]". It is agreed with the applicant's arguments on pages 37 to 57 that the applicant points out the deficiencies in the Dai et al reference compare to the claimed invention, as claimed. The prior art does not disclose or fairly suggest, either alone or in combining with any other references to meet the limitations as claimed in claims 1, 13, 15, 17, 50, 65 and 74 either under 35 USC 102 or 103. Therefore claims 1-6 and 13-83 could be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
